FORWARD THINKING MOBILE SURVEILLANCE

www.mobilesentinel.com.au

ABOUT US

Democratising remote surveillance with Mobile Sentinel surveillance trailers. Mobile Sentinel is easy to use and employs the latest technologies, so our experience is simple, easy and state of the art.

Mobile Sentinel surveillance trailers are available for hire or purchase. Being trailer based and DIY easy, Mobile Sentinel surveillance trailers are suitable in almost every application thinkable.

Full support is provided at every step of the way along with Setup and installation services available if required along with onsite support and training services.

HIRE

Mobile Sentinel Surveillance Trailers start from \$150 per week excluding GST. Payments are via easy to use direct or via invoice for long term hire.

For long term arrangements get in touch to discuss your requirements.

PURCHASE

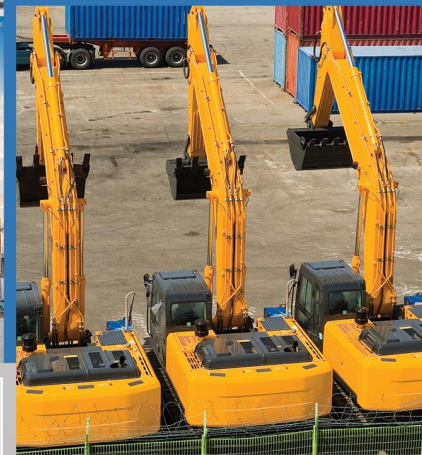

\$14900 ex GST which **includes 1 year remote support***. Support includes over the phone and remote support for changing settings and schedules as well as monitoring the onboard systems for faults or issues.

*support conditions apply

IDEAL FOR

- ▶ CIVIL & CONSTRUCTION SITES
- ▶ RESIDENTIAL PROPERTIES
- ▶ CARPARKS & YARDS
- ▶ EVENTS
- ▶ CIVIL PROJECTS

MOBILE SENTINEL BENEFITS

COST EFFECTIVE

- ▶ No minimum hire terms
- ▶ No setup/return fees
- ▶ Simple weekly hire fee with everything included including great customer support

WIRELESS

- ▶ Mobile Sentinel has built in mobile connectivity so that its truly portable and doesn't require an internet connection

SELF SUFFICIENT

- ▶ Integrated solar panels and batteries provide 5 days of power even without sunlight. No power or cables or supply is required

ULTRA-HIGH-QUALITY FOOTAGE

- ▶ Top quality 4k cameras (4 times the resolution of HD) provides incredibly clear footage with 2 weeks retention
- ▶ Adjustable 3 x optical zoom via app to easily adjust for long and short distance installations

MOTION SENSING FLOOD LIGHTS

- ▶ The motion sensor can be easily adjusted on site to monitor areas of your choice and trigger the integrated LED flood lights when motion is detected providing a visual deterrent for potential intruders
- ▶ Motion sensors are the latest dual tech PIR and Microwave technology to provide minimal false positive motion identification

NIGHT VISION

- ▶ High powered Infrared illuminators allow footage to be viewed day and night

PORTABLE

- ▶ Mobile Sentinel is trailer based, which you can be picked up by yourself which means there are no setup/pickup costs. Mobile Sentinel is simple and easy to move on site as required

DIY OR ASSISTED SETUP

- ▶ Pickup, install and move your Mobile Sentinel unit around as you require. Pick up Mobile Sentinel and follow our simple setup guide to be up and running within minutes
- ▶ Full delivery and setup can be arranged if preferred

USER SETUP

- ▶ Setup additional users with ease. Simply invite a user by entering their email address into the app and remove the users when no longer required

SECURITY

- ▶ Integrated wheel locks and retractable trailer draw bar secures Mobile Sentinel and provides a minimal footprint whilst onsite
- ▶ Optionally enabled strobe and siren can be easily enabled if your site allows visual and audible deterrents.

INSTANT ALERTS

- ▶ Vision based push notifications can easily be setup to monitor the areas of concern and exclude things that are a nuisance. They can be tailored based on time of day, or when your workers are offsite
- ▶ SMS alerts from the motion sensors can be sent to your key workers on a schedule of your choice

GPS TRACKING

- ▶ Mobile Sentinel includes GPS tracking with GEO Fencing, so in the rare event the unit is removed, it can be tracked easily with immediate SMS alerts.

STATE OF THE ART APPS

- ▶ State of the art apps are free to download for Android and IOS
- ▶ PC access via the web browser, no software installations are required.
- ▶ Protect your logon via Multi Factor Authentication
- ▶ Full system adjustability is provided via the app
- ▶ Step through motion events with 1 tap
- ▶ Live time-lapse allows you to simply flick the screen to see the days go by in real time
- ▶ Download footage with a few simple clicks
- ▶ Setup and adjust alerts and motion zones with a few taps via the app
- ▶ Add additional users to your system via simple invitation via the app
